

Sintratec Calibration 7x7 v2.0

[INSTRUCTION] Print card with inkjet or laser printer in 1:1 size. Measure and verify distances. Cut along red border. Glue card flat to 2mm metal sheet.

[INFO] *This digital calibration card is provided for printing by Sintratec S1 users. For calibration use the calibration wizard in Sintratec Central Software. Make sure to use a printer with accurate printing! To verify the accuracy measure the specified distances. If no printer with accurate printing is available, contact support@sintratec.com for delivery of a prefabricated card.*
